

Intelligent Inserting Solutions

Adding capacity, flexibility and simplicity to your entire line. *That's Sensible.*

Short runs. Mid-length runs. Long runs. When demands change as fast as they do in our industry, you need inserting solutions with the flexibility to adapt. That's why Sensible Technologies' fully customizable inserting solutions are designed to make change-overs fast, simple and technician friendly. Control production costs on shorter runs, increase operator efficiency and handle unforeseen page-count spikes—all for less than competing systems. Our Intelligent Inserting Solutions make it easy. For efficient performance, optimized scalability and maximum ROI, make the Sensible choice.

Each of our solutions includes our durable feeder/folders fully integrated with a reliable intelligent inserter—complete with user-friendly software. Our models deliver:

- More uptime
- Intuitive touch-screen controls
- Selective inserting
- Greater accuracy
- Lower service costs
- Sequential startup and shut down
- 1D, 2D and OMR reading available

Two flexible solutions to fit any need.

CL-10

For jobs requiring a higher level of verifiable accuracy, the CL-10 is a top industry choice.

Product Features:

- 10,000 cycles/h Inserter speed
- 24,000+ sheets/h Feeder speed
- Process #10 and 6x9 envelopes
- Document sizes – A4, A5, Letter and Legal
- Capacity from 100K to 2 million+ envelopes/month

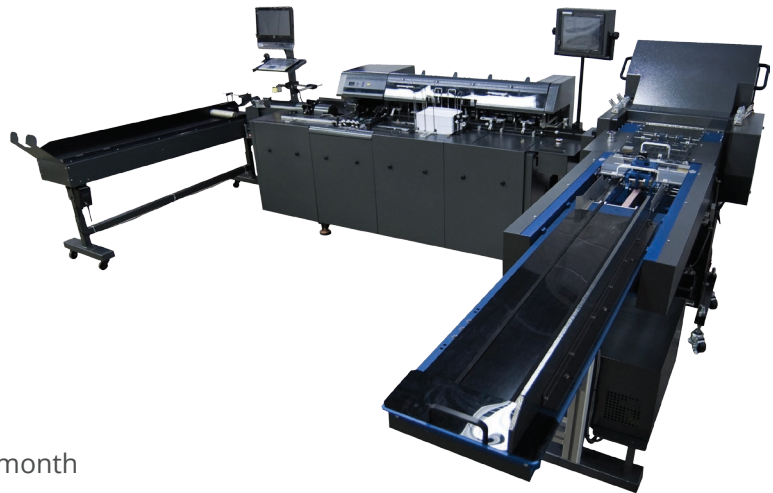

LX-10

Boasting the industry's highest ROI, the LX-10 system is a high-page count workhorse.

Product Features:

- 10,000 cycles/h Inserter speed
- 40,000+ sheets/h Feeder speed
- Process #10 and 6x9 envelopes
- Document sizes – A4, A5, Letter and Legal
- Capacity from 100K to 2 million+ envelopes/month

Additional Systems/Models are available: • Flats Systems • Other
